Fell Into a Cistern.

Albert Larmouth, the little 10-year-old son of Jno. Larmouth, while playing in the yard of W. A. Toombs, where a new cistern was being dug, accidentally fell to the bottom of the hole, a distance of twelve feet, sustaining a fractured arm and many bruises about the head and body. It was a miraculous escape from instant death, for the bottom of the cistern was strewn with broken rock. Dr. R. A. Chatten was called and set the fractured member. The boy, from last reports, was doing very well, and able to be around.

Messrs. F. M. Nisbet, Rufus Teague and James Clinton were appointed commissioners to re-divide the magisterial districts of the county, according to the provisions of the new constitution.

The Late Rally.

The Democratic rally and barbecue here on Saturday is now a thing of only the past. The rains of the early morning prevented hundreds of the "unfettered" from putting in an appearance. Toward noon, however, the clouds broke away. It was then the people, by train, by wagon, on foot and on horseback commenced coming. From all over the county were men, women and children here to partake of true Democratic hospitality. None left unfed. There had been plenty furnished. The delicious barbecued meats seemed alike to please the taste and to satisfy hunger. The McKenzie club, under whose management themselves handsomely. Everything passed off as if it had been an every day occurrence. The speakers introduced and who responded were Hons. J. A. McKenzie, J. W. Lockett, C. T. Allen and Ward Hedley. Dancing late into the night afforded amusement for those in a dancing frame of mind. Several hundred people were present.

Who Shot Him.

Early Monday morning, a Negro applied to Dr. Chatten for surgical treatment. Upon examination it was found the Negro had received a pistol shot in the right arm near the elbow. When asked as to how and when he was shot he said that late Sunday night he was walking along the railroad, and some one passing had shot him. This story was considered too flimsy for belief, so flimsy indeed, that Officer Barnett made inquiries and soon learned that some one, supposed to be a Negro, had attempted to burglarize a house at Nortonville and that an exchange of shots had taken place. As the description given tallied to that of the man under treatment, he was arrested and taken to Madisonville for trial.

LATER—Since the above was put in type it has been learned that this same negro, or one answering the same description, was put off the north-bound passenger train, this side of Nortonville, the night in question for attempting to steal a ride, and on being put off fired two shots at the train crew. The conductor is said to have returned the shot, and that may account for the wound. At any rate until the full evidence is brought out at his examining trial, there will continue to be some mystery about the affair. The negro does not bear a good reputation.

Give Us A Public School.

We learn with a sense of regret, that there is a movement to erect another school building.

It is not the establishment of a public school system, to which we raise a point of objection, but to the multiplicity of buildings of an inferior nature.

May God spare the day when Madisonville may possess a fine and well managed public school building, with commodious and respectable edifices, which latter we are in dire need. It is in no wise probable that the present rainbow chasing idea of making every rock and corner of the city, the site of a "free road" school house will attain the end desired.

Education should be as free as air and sunshine; alike to rich and poor. It should not be for the gratification of selfish motives, but for the public good.

It is of course desirable to secure a convenient locality for a public school building, but everyone cannot have it at his door. This problem could perhaps be solved by a conference of the friends of advanced education for the purpose of selecting a central location, appropriate an amount sufficiently large to erect thereon a structure which will be an honor to the city and

prove a lasting benefit to its citizens and children.

The intent of this article is not to detract from the deference due to the trustees, but to portray to our readers the way in which we are drifting. It is our earnest hope that those loyal to the cause of education: the parents of loving children; the friend to the poor man and those who take an interest in the welfare and progress of our little city, will consider this matter of grave importance to all.

The colored people had a grand barbecue last Saturday, at John Irving's Park. The members of some "ancient order" formed in line on the public square and headed by a brass band, marched triumphantly to the place of pleasure. Rev. I. A. Lyon, of the Cumberland Presbyterian Church of this city, began a meeting at Sturgis last Sunday. He has also been elected President of the Auburn Seminary, which begins its first term September 5th. The State Superintendent of Public Instruction of Tennessee has the following to say concerning him:

DEPARTMENT OF PUBLIC INSTRUCTION, NASHVILLE, TENN., MAY 28, 1922.

To Board of Trustees, Auburn, Ky.—Gentlemen: Learning that my friend, Hon. P. A. Lyon, is applying to your Board for the position of Principal of your Seminary, I take pleasure in certifying to his ability as an instructor, his attainments as a scholar and his high character as a gentleman.

My intimate acquaintance with him as an assistant in no college for several months, and my knowledge of his reputation as a teacher and a member of the Tennessee Legislature enable me to speak with confidence.

There is no man of my acquaintance whom I would prefer for such a position, and cordially commend him to your favorable consideration.

Very Respectfully, W. K. GARRETT, State Superintendent.

BRUNK AGAIN.

F. A. Langley, Judge of the City Court, was again in an Intoxicated State.

Last Saturday.

In this hilarious condition he was seen to approach a moving train, wave his umbrella in a ridiculous manner, and then attempt to ascend the stairway leading up to Ray's Opera House. Officer Craig was in the vicinity, took the Judge in charge and was in the act of placing him in the station house, when friends intervened and the "dealer of justice" was released, only

upon promise that he would pay his fine and return home, to make his appearance at the following Monday. When last seen, Saturday, he was being led home by his aged father, whose hair has turned to gray by the ravages of time and trouble. In one sense the Judge is to be pitied; in another, condemned. If ill health and his appetite for strong drink cannot be overcome, he deserves some sympathy, but for this flagrant abuse of public trust, condemnation is due him. His actions have become intolerable and the citizens are at last aroused to indignation.

He was appointed deputy stamp collector for Collector Feland, and has made a valuable and proficient officer, and is one of the most popular young men in the district. He has had the utmost confidence in the Republican party, and was in favor of running a man for Congress. While Mr. Peters is bold and enthusiastic, he is also very discrete.

UDAVOIDABLE.

Postponement of Old Point Comfort Excursion, Until August 16, 1922.

LOUISVILLE, KY., JULY 22, 1922.

It is with regret the announcement is made that the Excursion to Old Point Comfort and the Seashore will have to be postponed until August 16th. This was brought about by the inability of the Pullman Co. to furnish sleeping cars as promised, caused by the heavy demands of the Knights Templar Conclave at Denver. The railroads desire that those who go with these parties will be well taken care of, and everything done for their personal comfort, conse-

quently it is to be hoped you will appreciate the situation, and arrange to go on the 16th of August. The trip will be exactly the same, tickets good for three weeks, and stop-over allowed on the C. & O. If you have secured sleeping car space, please send your ticket and have it exchanged, so as to prevent confusion.

Yours truly, W. A. WILGUS, T. P. A., C. & O., Louisville, Ky.

During the epidemic of flux in this county, in 1888, I had hard work to keep a supply of Chamberlain's Colic, Cholera and Diarrhoea Remedy on hand. People often came ten or twelve miles in the night to get a bottle of the remedy. I have been selling patent medicines for the past ten years and find that it has given better satisfaction in cases of diarrhoea and flux than any other medicine I have ever handled.

J. H. BENHAM, Druggist, Golconda, Pope Co., Ill. Over five hundred bottles of this Remedy were sold in that county during the epidemic referred to. It was a perfect success and was the only remedy that did cure the worst cases. Dozens of persons there will testify that it saved their lives. In four other epidemics of bowel complaint this remedy has been equally successful, 25 and 50 cent bottles for sale by the St. Bernard Drug Store, Earlington, Ben. T. Robinson, Morton's Gap, George King, St. Charles, Ky.

MINING BEES.

Judge Stokes is slowly improving and
